

*Supersonic*  
551000

# **BACK TO THE FUTURE!**

The flagship of Supersonic has arrived from the golden music-furniture era of the last century and sets completely new standards: In this hand-made genuine product, timeless design and high-end sound quality blends into an over the top art work.

The SS1000 is completely designed and build in-house where sophisticated craftsmanship meets the most up to date technology. Several design elements as well as the exclusive leather upholstery are adapted in consultation with our clients to create a unique and customized product.

The unique Supersonic hybrid power-amplifier has been developed for more than two years. A masterpiece of engineering which combines the best features of electron tube technology and modern microelectronics. It delivers an immense continuous output power. Even when you do not necessarily need it all the time - it is good to know that you could.

The SS1000 implements all technological features which will dominate the market for the upcoming decade. Due to an integrated media server with Smart-TV-, Bluetooth™-, USB™- and Airplay™- Interface the SS1000 can be combined with any state of the art media source.

# TECHNICAL DATA

## MEDIA SERVER

Integrated, exchangeable audio/video media server (Apple-TV© or comparable)

## AMPLIFIER

Symmetrical hybrid tube/transistor amplifier with 324watts continuous sine output power into 8ohms load. ECC88 based pre-amplifier stage with two EM84 YU level indicators.

## AUDIO PROCESSING

All incoming signals (except the analogue input) are processed by a high quality 24BIT digital to analogue converter.

## LOUDSPEAKERS

Beyma© 10 CX 300/FE coaxial drivers. Bass-reflex system in super-linear configuration. Lower cut off frequency: 30Hz.

## INTERFACES

Smart-TV HDMI-interface  
Bluetooth™4.00 audio interface  
Apple-Airplay™ interface  
Lossless USB™ Audio interface  
USB Smartphone charging interface  
Analog- Stereo Audio input

## POWER SUPPLY

Supply voltage: 230VAC / 50Hz  
Peak power consumption: 1kVA

## PHYSICAL PROPERTIES

Dimensions: 220cm x 60cm x 40cm (Length | Height | Depth)  
Weight: ~150kg

## SALES INFORMATION

The SS1000 is manufactured and assembled by hand. The production time is about 3 months. Price on request. Do not hesitate contact us for your personal offer.

## MANUFACTURING & DISTRIBUTION

sbuell engineering GmbH  
Lerchenfelderstrasse 7/17  
1070 Vienna  
Austria
